

Trava™

ARTISAN MASONRY STONE THIN VENEER

ECHELON™

Quality masonry products from
Oldcastle APG
A CRH Company

The modern-clean lines of Trava Lightweight Veneer offer a distinctive face texture reminiscent of natural stone. The impressive finish emulates the look of travertine, and is perfect for interior or exterior commercial applications. Trava's distinct appearance provides the ultimate design flexibility as a lightweight veneer, and its sleek linear profile can be easily mixed with other materials to achieve a unique contemporary look that sets your project apart.

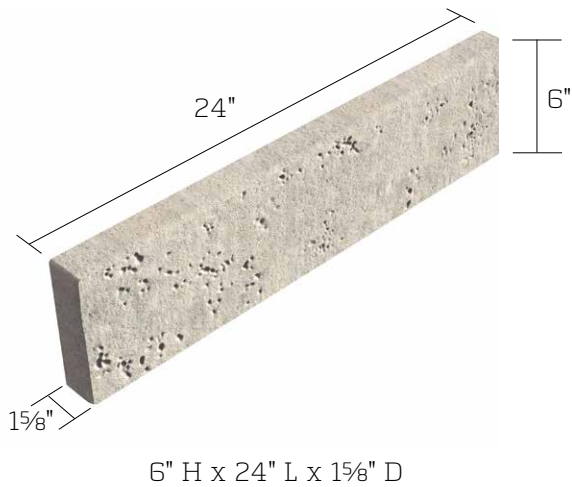

Features & Benefits

- 24" long veneer design delivers long clean sightlines
- Distinctive natural look that emulates travertine
- Ideal for interior & exterior applications
- Integral water admixture repels water & resists mold.
- Fast installation
