

## DESIGN GUIDE SUPERLITE

## **WHY ECHELON?**

For generations, Oldcastle® APG has been North America's leading manufacturer of building products and materials, well-established as an industry leader dedicated to being a true partner from project concept to completion and beyond. Echelon Masonry is a consolidation of our many masonry products, services and industry knowledge into a single brand, providing a singular go-to source for high-performance products and reliable expertise.

#### **INDUSTRY INNOVATORS**

Echelon Masonry® is dedicated to meeting the ever-changing needs of the construction industry by investing millions of dollars annually in the research and development of new and innovative products. This unceasing pursuit of excellence has culminated in a comprehensive range of structural masonry products including premium architectural block, customizable concrete masonry units, full depth (anchored) and lightweight (adhered) veneers, and high-performance wall systems.

#### NATIONAL PRESENCE

With over 50 locations and a company culture characterized by a commitment to customer satisfaction, Echelon adheres to a level of service and consistency that no other brand can match. Our combination of local market presence and national capabilities allows us to meet and exceed the demanding needs of an ever-changing industry.

### **REGIONAL SERVICES**

Our local companies maintain the confidence of builders, architects and consumers through our innovative technologies, premium architectural building products, committed service and on-time deliveries. Regionalized operation allows us to be a dedicated and responsive partner to find the right solution for any project challenge.

#### SUSTAINABILITY

Echelon Masonry is manufactured locally allowing you to achieve LEED credits for MRc2.

#### **COST EFFICIENCY**

Upfront construction costs don't tell the whole story. When all factors are taken into account, masonry is 5.6% more economical than building with wood.

### **ENERGY**

Echelon's patented Insultech System delivers R-16.2 performance, exceeding energy code requirements.

### RESILIENCY

Annually, non-masonry structures under construction experience up to \$157M in fire damage. Specifying masonry construction can help prevent these losses.

#### DESIGN

No other material can replicate the masonry aesthetic or provide as much design flexibility in colors, textures and finishes.

# REALIZING YOUR DESIGN INTENT

Take your project from concept to completion.

### **EXPERT SUPPORT**

Echelon's team of industry experts are by your side to answer questions and provide job-specific solutions from project concept to completion.

#### **ON-SITE TRAINING AND CEUS**

We're glad to provide on-site training for complex projects and continuing education to make sure you're up-to-date on topics relevant to your work.

#### **MASONRY MODELING**

In partnership with Masonry IQ, Echelon provides free access to an advanced Revit plugin tool giving you the ability to model faster, estimate earlier and take advantage of all the benefits of masonry you've been missing.

### FINISH THE JOB

Complete the job with Amerimix pre-blended mortar, designed to work with Echelon Masonry to deliver superior results.

WITH YOU AT EVERY STAGE OF THE **PROCESS**

ARTISAN MASONRY VENEER

# LIGHTWEIGHT VENEER

## CORDOVA STONE

### The sophistication of hand-cut natural stone

Cordova Stone™ is a high-density, pre-finished architectural stone cladding that achieves the prestigious look of natural limestone by incorporating all-natural aggregates, recycled content, and integral color throughout each unit. This timeless veneer offers the design flexibility of four texture options and is also available in full-depth options. See page 24.

## **COLOR OPTIONS**

### ADDITIONAL COLORS & TEXTURES AVAILABLE

## Distinctive travertine aesthetic with linear appeal

The modern lines of Trava feature the distinctive face texture of natural travertine and is ideal for both interior or exterior applications. With finished edges that eliminate the need for corner units and integral color and water repellant throughout each unit, its sleek linear profile can be used alone or mixed with other materials to achieve a unique contemporary look.

## COLOR OPTIONS

#### ADDITIONAL COLORS AVAILABLE

## **STRATICA**<sup>™</sup>

## Unique striated face that catches the light and the eye

Statica offers the look of hand-tooled striations and delivers distinctive horizontal shadows that change with the light. The ultra-modern design of this architectural veneer features integral color and water repellant, textured ends for corner applications, and long clean sight lines. The touchable texture creates an eye-catching look when used alone or as part of a mixed material design.

## COLOR OPTIONS

#### ADDITIONAL COLORS AVAILABLE

## FULL DEPTH VENEER

## ARIA SLIM™

### Contemporary elongated linear aesthetic

The simplicity and integrity of concrete takes center stage in the contemporary lines of Aria Slim. Its avant-garde and minimalist design offers a modern touch to any architectural project, features integral color throughout each unit, and can be used to create stunning linear or modular patterns.

## COLOR OPTIONS

### ADDITIONAL COLORS AVAILABLE

## **CORDOVA STONE**™

### The sophistication of hand-cut natural stone

Cordova Stone™ is a high-density, pre-finished architectural stone cladding that achieves the prestigious look of natural limestone by incorporating all-natural aggregates, recycled content, and integral color throughout each unit. This timeless veneer offers the design flexibility of four texture options and is also available as a lightweight thin veneer. **See page 14.** 

## COLOR OPTIONS

ARCHITECTURAL CMU

# STANDARD MASONRY

## SPLIT FACE

## Classic design that never goes out of style

Split Face concrete masonry units are molded with two concrete units attached face to face. The units are cured and then mechanically split apart, leaving the split face with a rough texture that emulates natural quarried stone and a distinctive appearance unique to every unit.

Regional Color Offerings

### ADDITIONAL COLORS AVAILABLE

Product colors vary by region. Scan the QR code to see your full regional color offering. Contact your local architectural rep for slump block, ribbed units and designer texture options.

## **PRECISION**

### A natural, unpretentious masonry aesthetic

Precision CMU, also referred to as smooth face, exhibit a natural finish without showing the aggregate. These architectural concrete units are available in a wide array of integrally colored hues. If desired, units can also include pre-consumer recycled content and integral water repellent admixture to repel moisture and resist mold. Also available as a lightweight (adhered) and full depth (anchored) veneer.

## TRENWYTH MASONRY

## **TRATTINO**<sup>™</sup>

### Unique textural aesthetic of travertine

Trattino is pre-finished architectural masonry that offers a natural travertine aesthetic with the added benefits of manufactured stone. Available in both full-depth veneer and structural units, the subtle irregular organic texture adds charm and visual interest to any project.

## COLOR OPTIONS

### ADDITIONAL COLORS AVAILABLE

## **MESASTONE**

### Enduring natural color and uniform texture

Mesastone pre-finished concrete masonry units are made with specially colored aggregates and pigment. The face of each architectural unit is finished to expose the aggregate and create a uniform textured surface that resembles split face masonry, but without the characteristic divots, making it easier to lay up and providing a straighter sight line. Also available as a full depth veneer.

## **COLOR OPTIONS**

### ADDITIONAL COLORS AVAILABLE

## **TRENDSTONE**

### Durability, with a vibrant ground stone look

Trendstone goes beyond standard ground face concrete masonry by applying a clear satin gloss acrylic to the exposed face of each concrete masonry unit. This process accentuates the natural beauty of the aggregates and provide moisture resistance for added durability.

Also available as a lightweight (adhered) and full depth (anchored) veneer.

### ADDITIONAL COLORS AVAILABLE

ARCHITECTURAL CMU

## STRUCTURAL BRICK

## QUIK-BRIK TRADITIONAL

### Classic brick aesthetics in a single-wythe package

Quik-Brik is a durable and efficient structural masonry option that offers the rich look of brick in a variety of shades. With nationally available color options, Quik-Brik is the ideal choice for retailers who demand consistency nationwide. Physical performance, usability, and cost effectiveness have earned Quik-Brik its unrivaled reputation among architects and contractors alike.

## COLOR OPTIONS

### ADDITIONAL COLORS AVAILABLE

## HARVARD BRIK

### Rich color blends for the look of craftsman-era brick

Harvard Brik provides a blended finish so authentic, brick masons of the past are smiling. It offers all of the benefits and efficiencies of Quik-Brik with a unique blended color palette and an integral color process that accentuates architecture with durable color fastness.

## COLOR OPTIONS

### ADDITIONAL COLORS AVAILABLE

## FOUNDER'S FINISH

### Multi-textural striations for a unique brick aesthetic

Founder's Finish structural brick enhances traditional brick aesthetics with the appearance of hand-tooled striations. The multi-textural effect adds a distinctive look to any masonry project and can be paired with other masonry units for additional design flexibility.

MASONRY SYSTEMS

## PERFORMANCE ENHANCEMENTS

## THERMAL PERFORMANCE

### The patented InsulTech™ Insulated Concrete Masonry System (ICMS)

The InsulTech system is a thermally-broken, continuous-insulated system that delivers unmatched R-16.0 performance. Each single, preassembled unit includes structural CMU, EPS insulation with drainage channels, and a veneer face. Both the structural block and exterior veneer are available in either standard finishes or Trenwyth architectural finishes for design flexibility.

# 700

## **ACOUSTIC PERFORMANCE**

### The combined acoustic and aesthetic power of Acousta-Wal°

Acousta-Wal sound-absorbing masonry units provide an indoor or outdoor solution for sound control, achieving NRCs of up to .85. The unique design absorbs sound waves of all frequency, even the difficult-to-control low frequencies. With a closed top and vertical slots that expose the inner cavity, Acousta-Wal is an upgrade option for many Echelon masonry units, providing a great deal of design flexibility.

load-bearing or non-load-bearing walls saves time and money.

Designed to absorb all sound frequencies and control sound transmission.

A single unit provides the surface color and texture along with sound control.

Single trade installation of finished
