

High Polished

TRENWYTH® ARCHITECTURAL MASONRY

Change the aesthetics of your next project by adding Oldcastle's filled and polished or high polished option to your architectural block or CMU. This option allows you to maintain all the benefits of a pre-finished architectural concrete masonry unit—one-step installation, maintenance-free and easy-to-clean—but with the look of a smooth terrazzo finish!

Features & Benefits

- Smooth terrazzo finish for an upscale aesthetic
- One-step installation
- Low maintenance & easy to clean
- Available as an upgrade to a number of architectural blocks & concrete masonry units
