

Mesastone[®]

TRENWYTH[®] ARCHITECTURAL MASONRY

Mesastone[®] textured masonry units are pre-finished architectural concrete blocks made with special colored aggregates and pigment uniformly finished to an even texture. The Mesastone textured surface resembles split face block, but is more uniform, easier to lay-up and provides a straighter site line to the building.

Features & Benefits

- One-step installation
- Low maintenance
- Mold & mildew resistant
- Durable
- Over-sized units available

Technical Information

ASTM C90 (Standard Specification for Loadbearing Concrete Masonry Units)	
NORMAL WEIGHT DENSITY	125 LBS./CU. FT. OR GREATER
INTEGRAL WATER REPELLANT	
INTEGRALLY COLORED	

Mesastone[®] - Adams Colors

NOTE: All color samples are representative only. For accurate color selection, ask your sales representative for samples.

Performance Upgrade Options: EnduraMax[™] System, InsulTech[™] System & Monumental CMUs.
