PRODUCTS: Echelon® High Polished Architectural CMU, Amerimix® Mortar AMX 405 – White & Custom Colors, Amerimix Portland Cement, Lime and Sand - Amx 400 Type S

QUANTITY: 1,045 Super Sacks – over 3 million pounds

Echelon Masonry, Amerimix and Jewell Plays a Role in Construction of Iconic New Stadium at Baylor University

With Baylor's football program on the upswing, the university invested in a new, state-of-the-art stadium that was completed to begin the 2014 season. Located on the Brazos River and directly adjacent to the I-35 Corridor, McLane Stadium serves not only as the front door to Baylor University, but also as the east anchor of downtown Waco. The \$266-million stadium is a multifunctional facility that hosts world-class music, family and sporting events throughout the year in addition to Baylor University football.

Echelon, Amerimix and Jewell partnered on the project supplying block on both the interior and on the concourses, bathrooms, and concessions. Specialty custom block "supplied by Echelon" was used on the

exterior wainscot along with custom colored mortar designed specifically for the job. The mortar for the entire project, including the interior and exterior brick, was supplied by Amerimix. Quality Brick Works from Robinson, Texas performed the installation.

"This was a very high-profile project on a facility that was not only important to Baylor University, but also the entire city of Waco since it's essentially part of the city's downtown," said Quality Brick Works owner

“Amerimix has a quality product that gives us the confidence to do our work and not have to think twice about the mortar.”

James Traylor Owner Brick Works

James Traylor. "One of the reasons why "Echelon & Amerimix" was such a good fit was the high-quality of its product combined with the ability to consistently match the mortar color across the entire project."

Echelon® High-Polished Architectural CMU was specified by the architect along with a distinct red brick. Since Amerimix is pre-blended, it eliminates any room for human error and provides a consistent product that looks the same and performs the same throughout the project. The mason was also pleased to work with one company to provide all of the mortar, which enhanced logistics and project flow, and offered a single source to guarantee the quality of the product.

“When you work on an extremely high-profile project like McLane Stadium you are center stage and if something’s not right you know about it very quickly,” said Traylor. “Both Echelon & Amerimix have quality products that gives us the confidence to do our work and not have to think twice about the mortar.”

As with most stadium projects, there was a finite deadline due to the impending first game of the season. Echelon, Amerimix helped the construction team Quality Brick Works easily meet its deadline so the capacity crowd could enjoy the Bears’ history-making opening game on August 31, 2014.

Amerimix® Preblended Colored Mortar

AMX 405 Colored Portland Cement and Lime Mortar and AMX 505 Colored Masonry Cement Mortar are factory blended with high quality iron oxide pigments that meet ASTM C 979 Standard Specifications for Pigments in Integrally Colored Concrete. These mortars offer long lasting color that integrate throughout the depth of the mortar joint. They are available in standard colors or custom colors to match your design team’s creativity. Available in types N, S and M.

Amerimix Portland Cement, Lime & Sand

The AMX 400 Series is a factory blend of portland cement, hydrated lime and dried sand. The AMX 400 Series is specially formulated to provide high water retention, exceptional workability and superior bond strength. Available in types N, S and M.

Echelon High-Polish

Echelon High-Polish units provides a unique and upscale aesthetic to any project with its smooth terrazzo finish. Change the aesthetics of your next project by adding Oldcastle’s high polished option to your architectural unit or CMU. This performance upgrade option allows you to maintain all the benefits of a pre-finished architectural concrete masonry unit—one step installation, maintenance-free and easy-to-clean—but with the look of a granite like finish!

About [Echelon](http://Echelon.com)® Masonry

Echelon Masonry is North America’s largest manufacturer of the highest-quality masonry products for the architectural and masonry industries. As the consolidated masonry brand for Oldcastle APG, a CRH Company, Echelon offers the widest masonry portfolio in the industry, from trusted brands like Trenwyth to innovative product solutions like the InsulTech System, as well as the localized, one-on-one support needed to bring the most ambitious projects to life. Since 2015, Echelon Masonry has been committed to supporting the time-honored tradition of masonry and advancing the craft for the 21st century and beyond.
