CORDOVA STONE™

VENEER, ARCHITECTURAL CMU

Cordova Stone is a high-density, pre-finished architectural stone cladding that achieves the prestigious look of natural limestone by incorporating all-natural aggregates, recycled content, and integral color throughout each unit.

NATURAL AESTHETIC

Uses a limestone aggregate providing a natural stone appearance

LASTING COLOR

Integrally colored

SUPERIOR DURABILITY

Exceptional compressive strength and moisture resistance

DESIGN FLEXIBILITY

Wide variety of shapes and sizes available

INSPIRATION

STARTS HERE

Explore Cordova Stone's shapes, sizes, colors and textures in our 3D interactive design environment.

ACCESSORIES

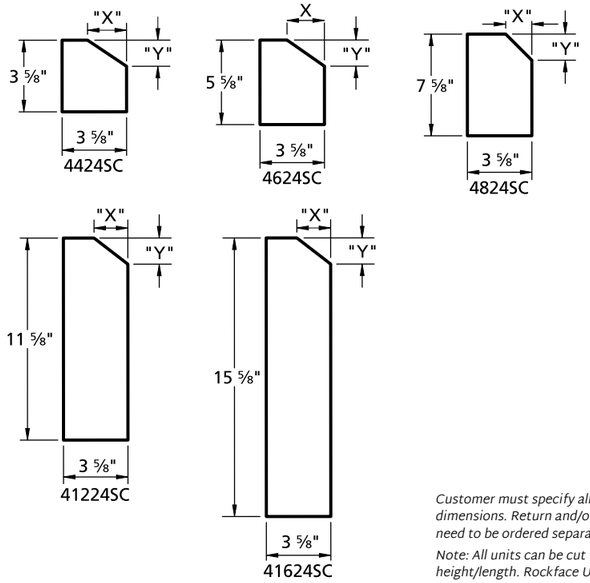

Apicae nis demoluptatus aut fugia voluptate ea voloreius enducia volum fugiti tem qui dolorro berera quod qui voloreicae con rae

CHAMFERS

4” Single Chamfer (SC)

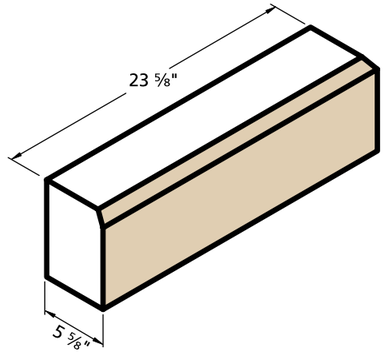

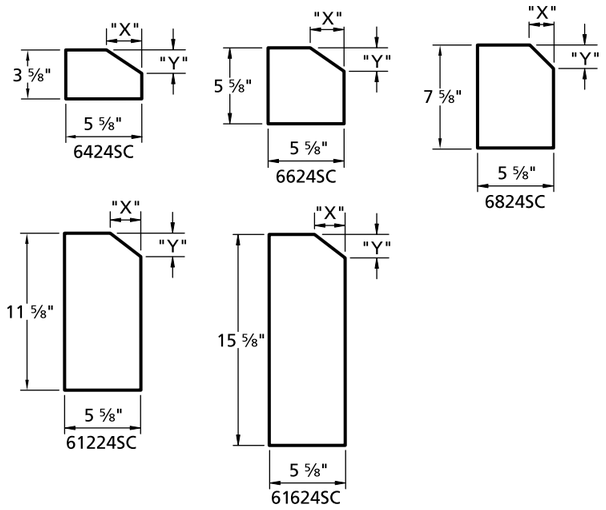

Available in Rockface (RF), Groundface (GF) and Textureface (TF).

Customer must specify all chamfer dimensions. Return and/or mitered corners need to be ordered separately.

Note: All units can be cut to a specified height/length. Rockface Units: Due to the irregular surface the chamfer cuts may vary. Available with or without drip cut.

6” Single Chamfer (SC)

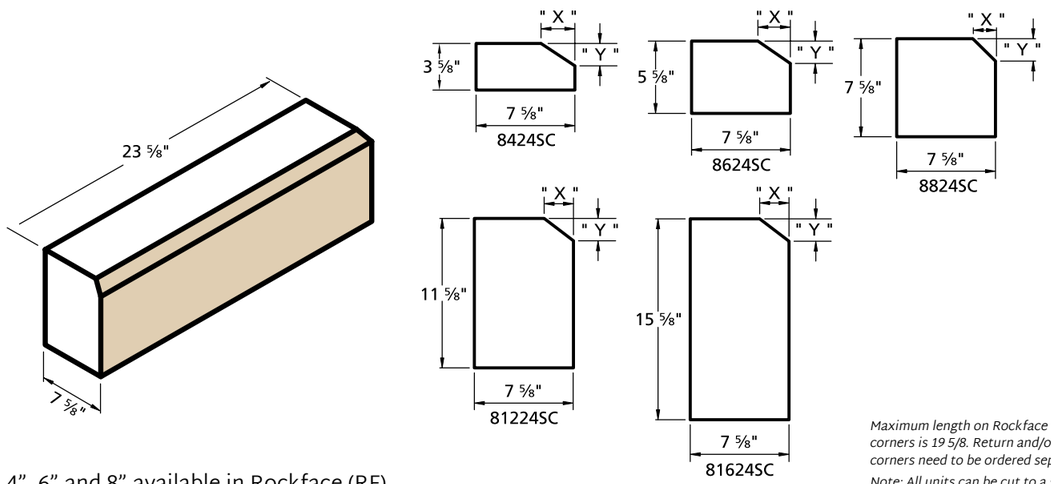

4”, 6” and 8” available in Rockface (RF), Groundface (GF) and Textureface (TF).

12” and 16”available in Groundface (GF) and Textureface (TF).

CHAMFERS

8” Single Chamfer (SC)

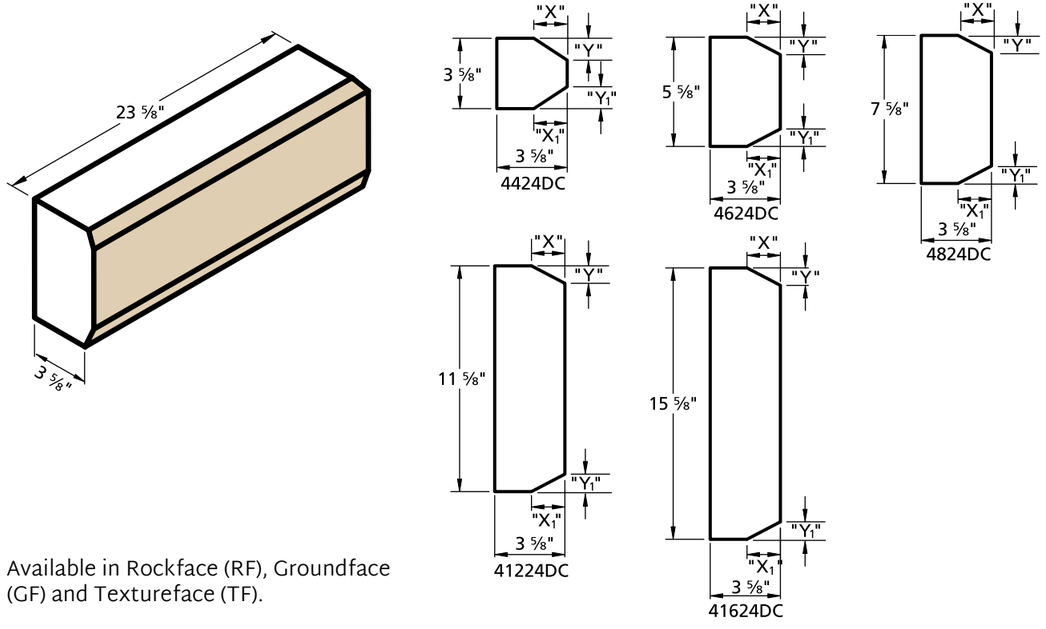

4”, 6” and 8” available in Rockface (RF), Groundface (GF) and Textureface (TF).

12” and 16” available in Groundface (GF) and Textureface (TF).

Maximum length on Rockface and Chiselface corners is 19 5/8. Return and/or mitered corners need to be ordered separately.

Note: All units can be cut to a specified height/length. Rockface Units: Due to the irregular surface the chamfer cuts may vary. Customer must specify all chamfer dimensions. Both chamfers do not need to be the same. Available with or without drip cut.

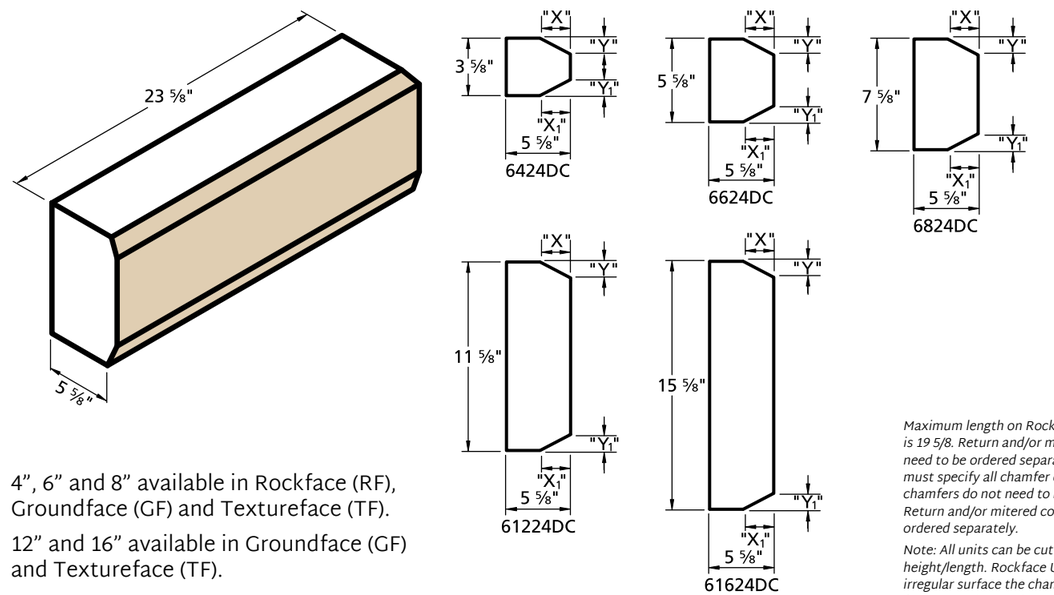

4” Double Chamfer (DC)

Available in Rockface (RF), Groundface (GF) and Textureface (TF).

CHAMFERS

6” Double Chamfer (DC)

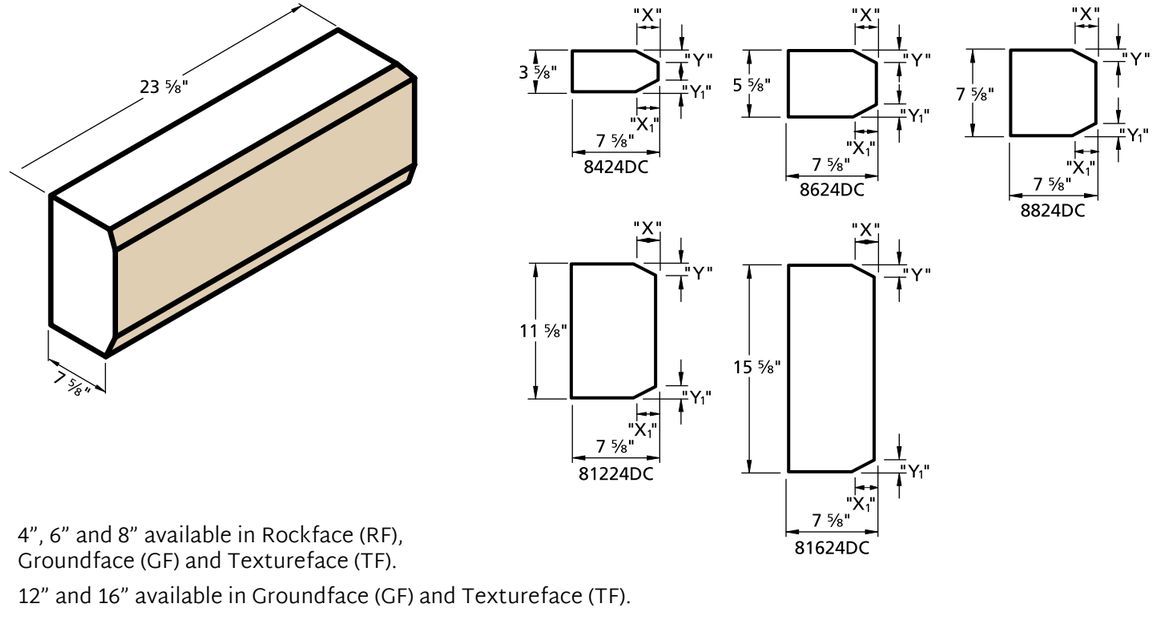

4”, 6” and 8” available in Rockface (RF), Groundface (GF) and Textureface (TF).

12” and 16” available in Groundface (GF) and Textureface (TF).

Maximum length on Rockface corners is 19 5/8. Return and/or mitered corners need to be ordered separately. Customer must specify all chamfer dimensions. Both chamfers do not need to be the same. Return and/or mitered corners need to be ordered separately.

Note: All units can be cut to a specified height/length. Rockface Units: Due to the irregular surface the chamfer cuts may vary. Available with or without drip cut.

8” Double Chamfer (DC)

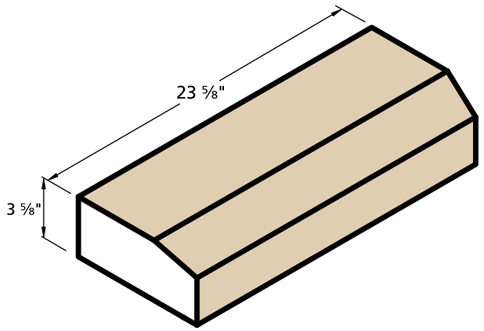

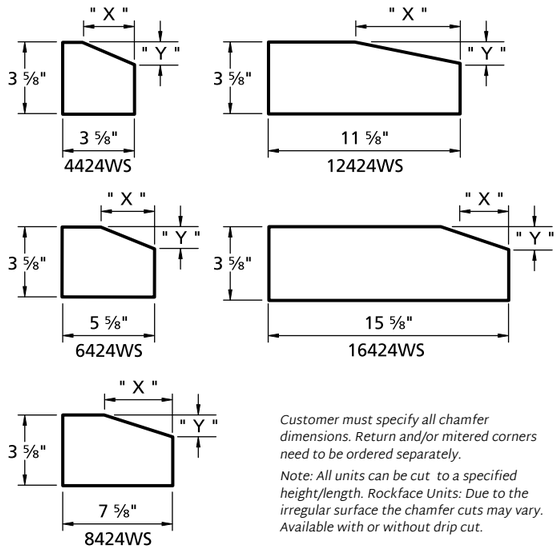

4”, 6” and 8” available in Rockface (RF), Groundface (GF) and Textureface (TF).

12” and 16” available in Groundface (GF) and Textureface (TF).

SILLS

4” Window Sill (WS) Top Finished

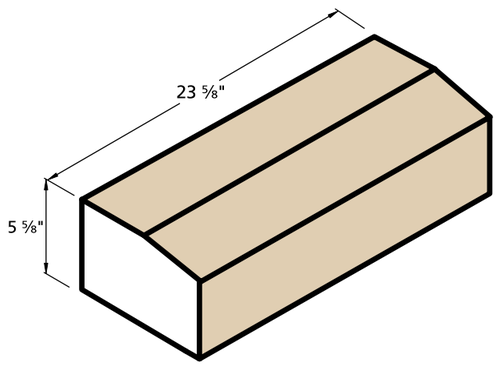

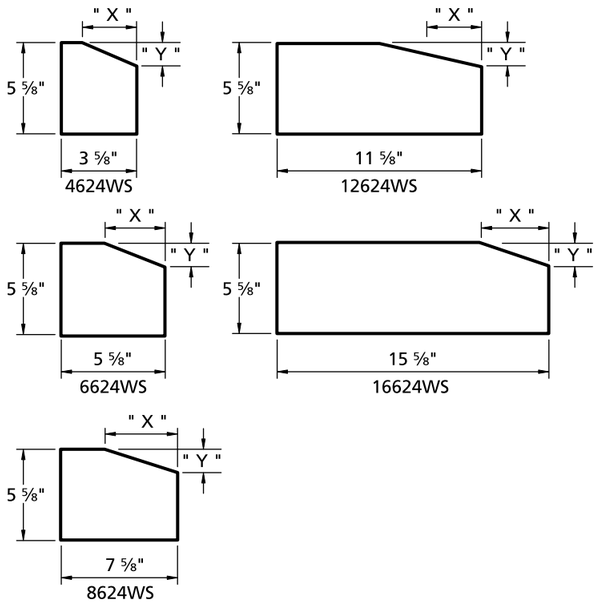

Available in Rockface (RF), Groundface (GF) and Textureface (TF). 16” available in Groundface (GF) and Textureface (TF).

Customer must specify all chamfer dimensions. Return and/or mitered corners need to be ordered separately.

Note: All units can be cut to a specified height/length. Rockface Units: Due to the irregular surface the chamfer cuts may vary. Available with or without drip cut.

6” Window Sill (WS) Top Finished

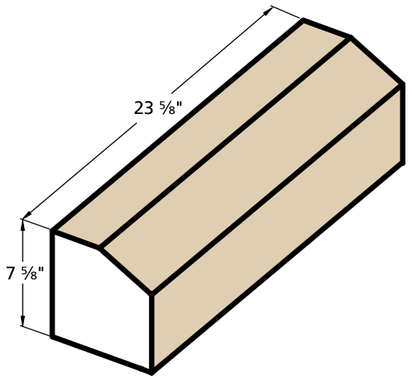

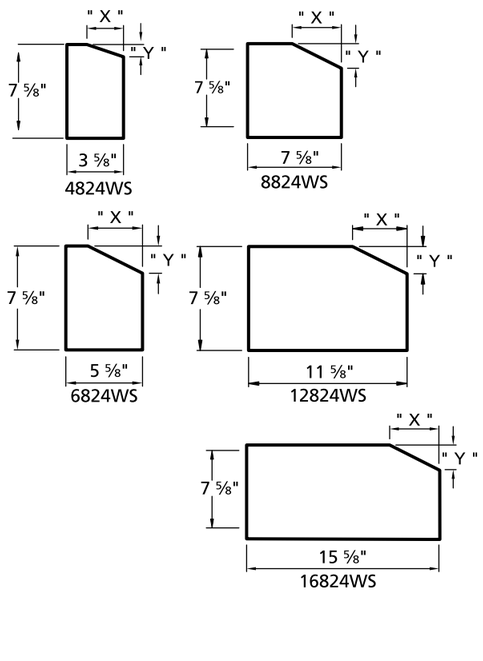

Available in Rockface (RF), Groundface (GF) and Textureface (TF).

16” available in Groundface (GF) and Textureface (TF).

SILLS

8” High Window Sill (WS)

Available in Rockface (RF), Groundface (GF) and Textureface (TF).

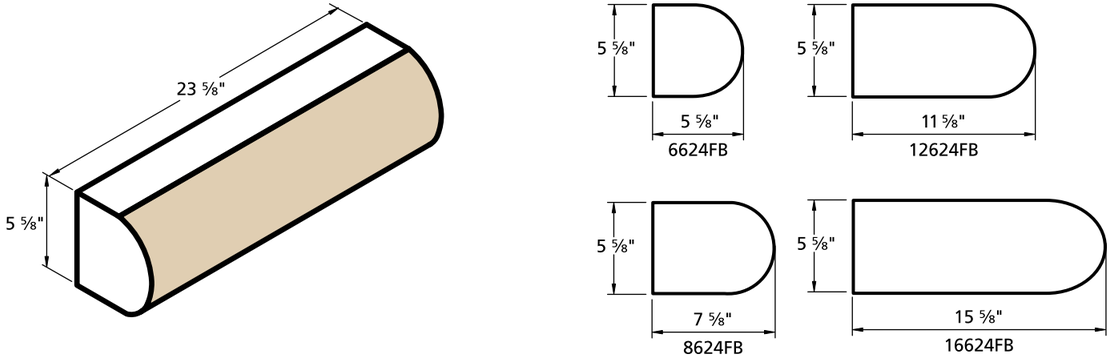

16” available in Groundface (GF) and Textureface (TF).

Customer must specify all chamfer dimensions. Return and/or mitered corners need to be ordered separately.

Note: All units can be cut to a specified height/length. Available with or without drip cut.

BULLNOSE UNITS

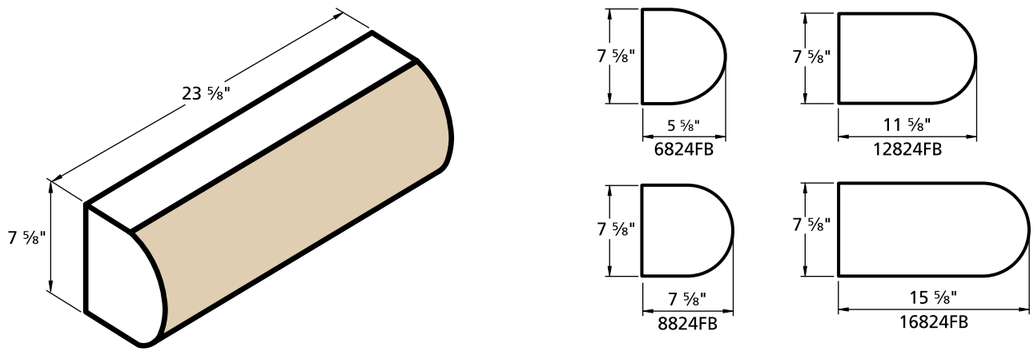

6” High Full Bullnose (FB) 2.8” Radius

Return and/or mitered corners need to be ordered separately.

Note: All units can be cut to a specified length. Available with or without drip cut.

8” High Full Bullnose (FB) 3.8” Radius

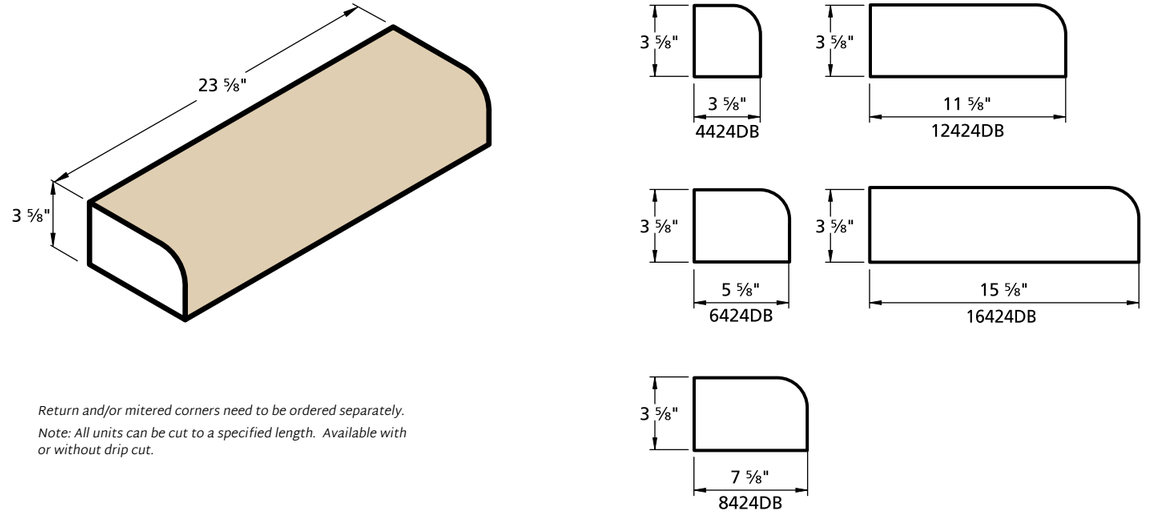

Return and/or mitered corners need to be ordered separately.

Note: All units can be cut to a specified length. Available with or without drip cut.

BULLNOSE UNITS

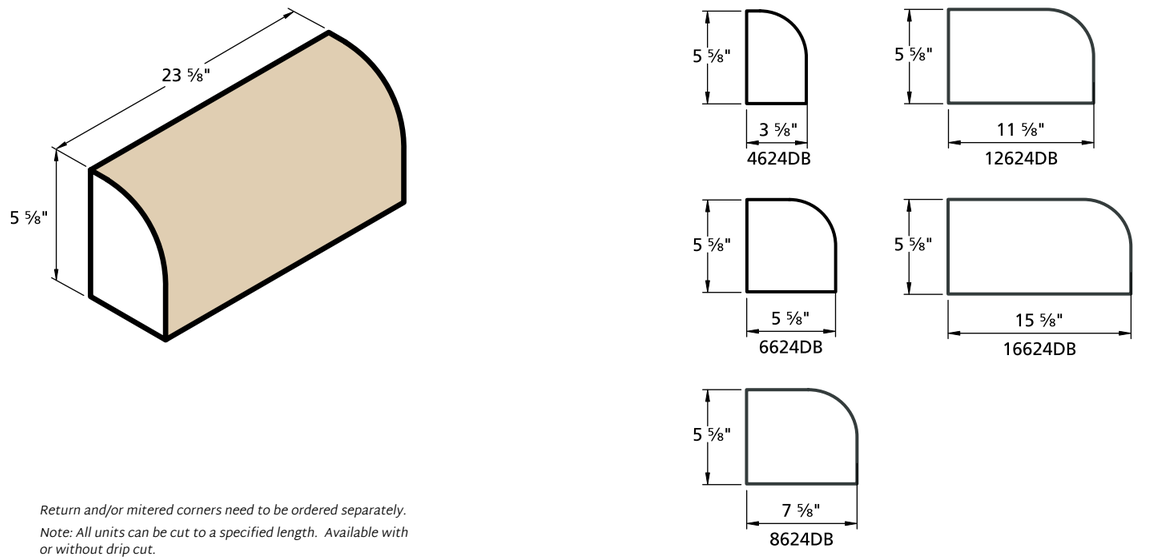

4” High Demi Bullnose (DB) 1.8” Radius

Return and/or mitered corners need to be ordered separately.

Note: All units can be cut to a specified length. Available with or without drip cut.

6” High Demi Bullnose (DB) 2.8” Radius

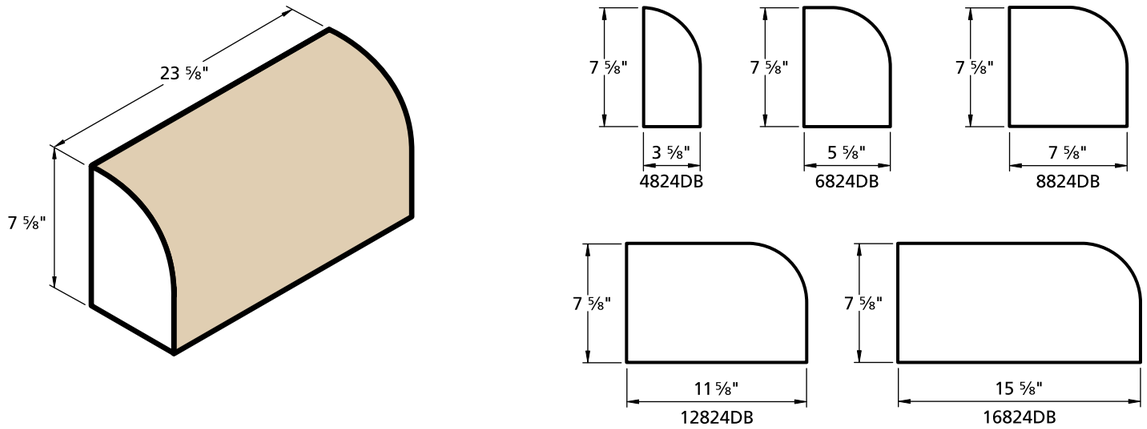

Return and/or mitered corners need to be ordered separately.

Note: All units can be cut to a specified length. Available with or without drip cut.

BULLNOSE UNITS

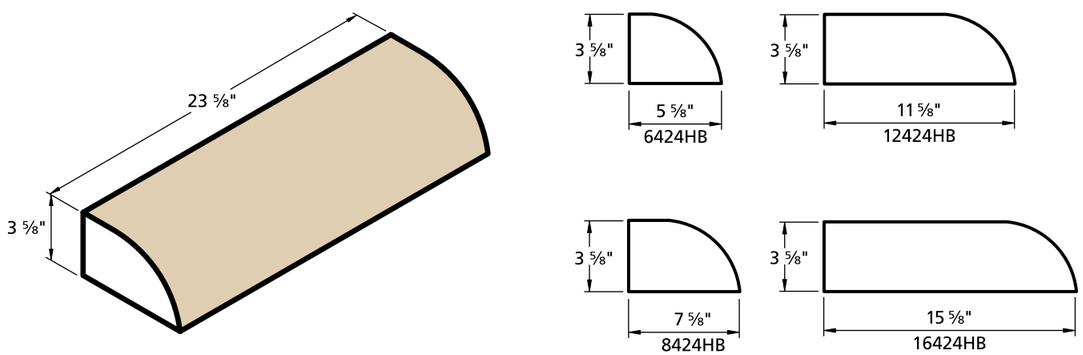

8” High Demi Bullnose (DB) 3.8” Radius

Return and/or mitered corners need to be ordered separately.

Note: All units can be cut to a specified length. Available with or without drip cut.

4” High Half Bullnose (HB) 3.8” Radius

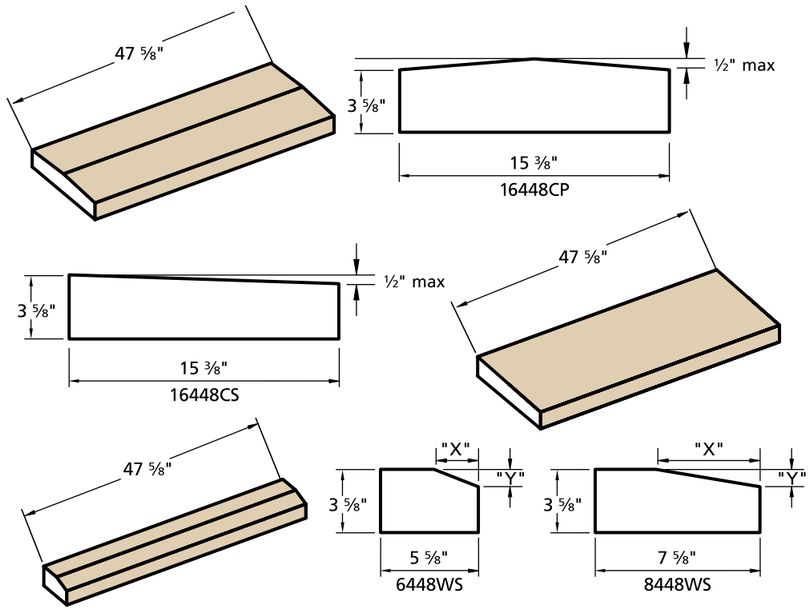

Return and/or mitered corners need to be ordered separately.

Note: All units can be cut to a specified length. Available with or without drip cut.

BULLNOSE UNITS

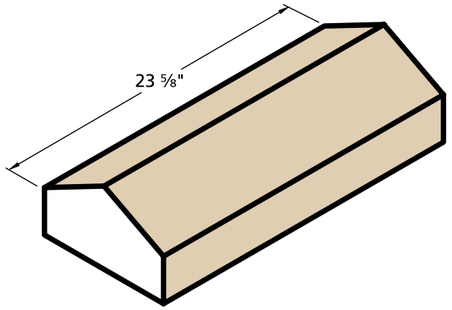

4’ Long Sills and Coping Units

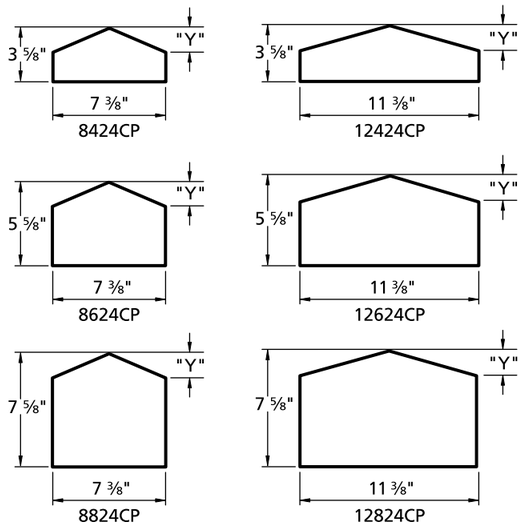

Note: Coping units can be custom cut to a specified wall width.

COPING UNITS

8” and 12” Wide Coping Units – Peaked (CP)

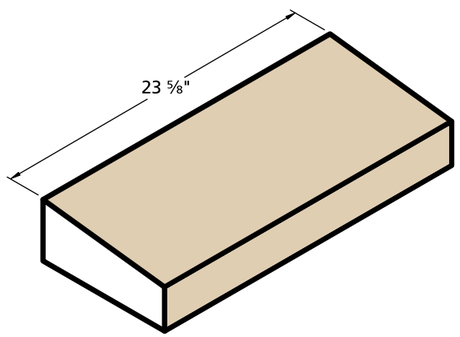

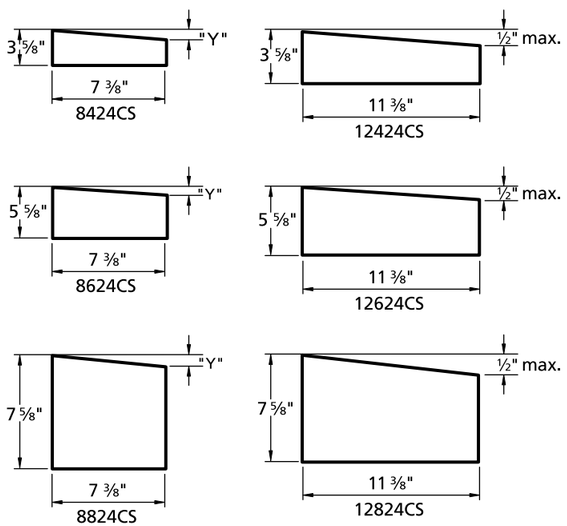

Customer must specify all chamfer dimensions. Return and/or mitered corners need to be ordered separately.

Note: All units can be cut to a specified height/length. Available with or without drip cut.

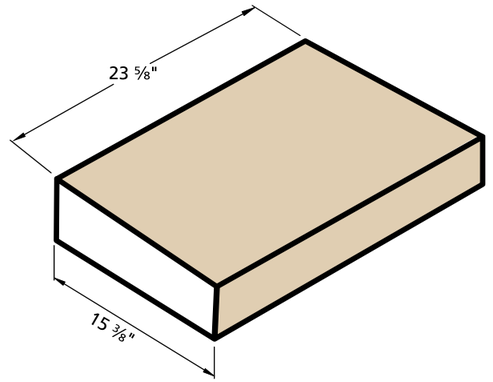

8” and 12” Coping Units – Sloped (CS)

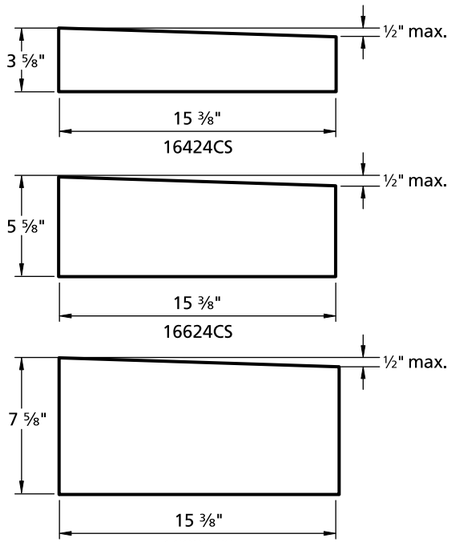

COPING UNITS

16” Wide Coping Units – Sloped (CS)

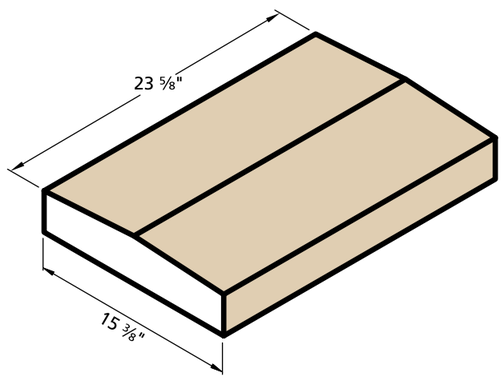

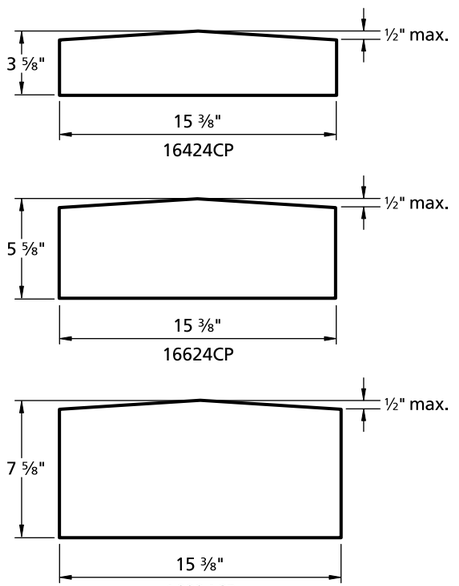

Return and/or mitered corners need to be ordered separately.

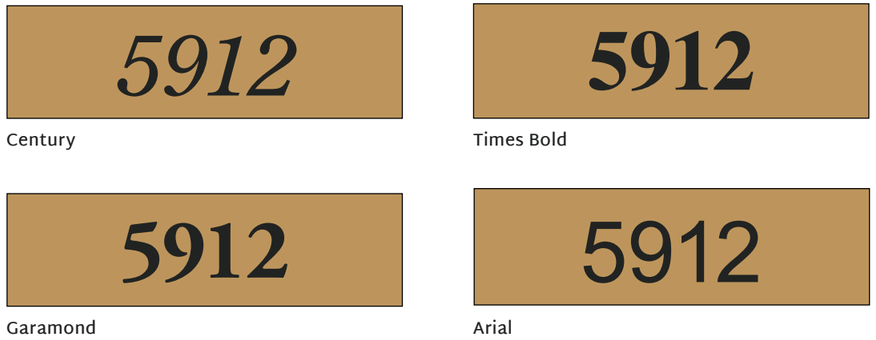

Note: All units can be cut to a specified height/length. Available with or without drip cut.

16” Wide Coping Units – Peaked (CP)
