HILLCREST™ STONE

THIN VENEER

Hillcrest Stone Thin Veneer features integral color throughout each unit and a tight dimensional tolerance that reduces installation time compared to natural stone. With finished ends and the look of dry-stacked quarried stone, this architectural stone masonry maximizes aesthetics and performance while minimizing cost.

ECHELON® MASONRY

FEATURES & BENEFITS

- Architectural thin veneer replicating the look of dry-stacked chiseled stone with no mortar joints
- Multiple shapes and depths provide a realistic natural stone look
- Tight dimensional tolerance provides faster installation time compared to natural stone
- Integral color and water-repellent admixture provide consistent through-body color and enhanced moisture mitigation
- Ideal for both interior and exterior applications
- Used for non-load bearing applications, thus doesn't require a footing

AMERIMIX®

For dependable performance and efficient installation, use Amerimix® pre-blended mortars and grouts.

TECHNICAL INFORMATION

ASTM C1877 - Specification for dry-cast concrete masonry units used as interior and exterior adhered veneer.
