QUIK-BRIK®

ARCHITECTURAL CMU

Get the look and feel of traditional brick with the benefits of manufactured concrete masonry. Quik-Brik® combines faster installation, consistent tolerances and lasting durability with a national color palette that supports a cohesive look across locations—helping national brands meet demanding project requirements without sacrificing aesthetics or performance.

ECHELON® MASONRY

FEATURES & BENEFITS

- Architectural CMU with a finish replicating the look of clay brick
- Available in a 4” veneer or a structural unit for increased installation speed compared to traditional brick
- National color palette provides color consistency, local availability and shipping efficiency for national specification
- Contains an integral water repellant for excellent moisture mitigation
- Units offer fade-resistant composition, are integrally colored, and are finished on all sides
- Can be insulated using same inslation materials used in standard CMU wall construction
- Loadbearing single-wythe construction eliminates the need for a separate brick veneer system

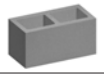

AMERIMIX®

For dependable performance and efficient installation, use Amerimix® pre-blended mortars and grouts.

TECHNICAL INFORMATION

ASTM C90 - Specification for loadbearing concrete masonry units.

SHAPES & SIZES
