SPLIT FACE

ARCHITECTURAL CMU

Split Face concrete masonry units are integrally colored and pre-finished with a rough-hewn texture on one or more faces. Molded as two concrete units face-to-face, they are mechanically split apart to create the look of natural quarried stone. No two units are exactly alike and are available with either single-sided or double-sided texture for multiple project needs.

ECHELON® MASONRY

FEATURES & BENEFITS

- Rough-hewn texture emulates natural quarried stone
- Single- or double-sided textures expand design flexibility
- Available in gray or integrally colored structural CMUs and veneer units
- Proprietary splitting process means that the finish is unique and no two blocks are alike
- Available with water-repellant admixture for enhanced moisture management
- Highly durable architectural concrete masonry for demanding applications
- Ask about ability to add pre-consumer recycled content

AMERIMIX®

For dependable performance and efficient installation, use Amerimix® pre-blended mortars and grouts.

TECHNICAL INFORMATION

ASTM C90 - Specification for loadbearing concrete masonry units.

SHAPES & SIZES

Depths	4, 6, 8, 10, 12"
