ACOUSTA-WAL®

SPECIALTY BLOCK

Acousta-Wal sound-absorbing concrete masonry units showcase both aesthetics and performance in a single product. With a noise reduction coefficient (NRC) of up to .80, the unique design of Acousta-Wal absorbs sound waves of all frequency, even those on the difficult-to-control low end.

ECHELON® MASONRY

FEATURES & BENEFITS

- Open-cavity design provides sound wave absorption for maximum noise reduction
- Applicable for both high frequency and low frequency sound absorbing applications
- Provide finished load-bearing and non load-bearing walls in a single trade one-step application
- Ideal for interior or exterior applications including gyms, stadiums, lecture halls, performing arts centers and outdoor amphitheaters
- Easy upgrade option from Echelon standard masonry units

AMERIMIX®

For dependable performance and efficient installation, use Amerimix® pre-blended mortars and grouts.

TECHNICAL INFORMATION

ASTM C90 - Specification for loadbearing concrete masonry units.

Please reach out to your sales representative for a complete list of available shapes and sizes.
