MESASTONE®

ARCHITECTURAL CMU

Mesastone pre-finished concrete masonry units are made with specially colored aggregates and pigment. The face of each architectural unit is finished to expose the aggregate, creating a uniform textured surface that resembles split face block without the characteristic divots. The more consistent surface makes units easier to lay up and helps create straighter sight lines.

ECHELON® MASONRY

FEATURES & BENEFITS

- Uniform shot-blast texture delivers a cleaner, more consistent split face look
- Evenly-textured units are easier to lay and provide straighter sightlines
- Regionally produced in a wide variety of color
- Available in a wide range of sizes including structural, oversized and veneer units
- Efficient one-step installation
- Durable, low-maintenance, and resistant to mold and mildew

AMERIMIX®

For dependable performance and efficient installation, use Amerimix® pre-blended mortars and grouts.

TECHNICAL INFORMATION

ASTM C90 - Specification for loadbearing concrete masonry units.
